## DEED OF HORROR DONE AT MIDNIGHT

Cremation Clandestinely  
Performed on Infant  
Remains.

### HAWAIIAN ELECTRIC CO.'S FURNACE THE CREMATORY

Two Firemen on Duty are Taken  
by Surprise With Visit of Strang-  
er Having a Parcel to  
Burn.

"He had a condemned look."  
So a fireman at the Hawaiian Electric Company's works said of a mysterious visitor to the furnaces on Thursday night. It was between eleven and twelve o'clock and, though the personality of the visitor remains a mystery, the nature of his errand was discovered immediately after he turned his back and glided into the night as abruptly as he had entered the place.

The stranger came to cremate the body of an infant in the furnace and he succeeded, his only failure being in concealing the nature of his errand. No doubt the fire tenders would have detained the perpetrator of the ghastly deed if they had not been taken by surprise. It was a quick afterthought of one of them which caused them to act barely in time to discover what the visitor had done.

Last night a Bulletin reporter who had heard of the occurrence, went to the fire room of the electric works to make inquiries of the firemen. He found Messrs. Meldon and Sennet on duty, the same men who had innocently aided the stranger in his act. Calling aside the one whose name he had heard, along with that of another incorrectly named to him, the reporter asked him for particulars of the gruesome event. The fireman at first refused to say anything about it, because they had given their word to High Sheriff Brown to keep the matter quiet for the present. When the reporter told him that he already knew the facts in general and would certainly report what he knew in the next day's paper, but desired to have the account correct in every particular, the fireman exclaimed:

Immediately on relieving himself of his burden, the stranger disappeared the way he came.  
Just then the published story of the finding of the body of an infant buried in the Kakaako sands flashed into Sennet's memory and he said to his mate: "I think we ought to know what is in that parcel. We had better pull it out."

Suiting the action to the word they opened the furnace door and began working with a fire hoe to rescue the object from the flames. Although the fire was a little green at the time, however, the manipulation with the tool caused the wrappings of the package to quickly burn away. They consisted of towels underneath the oil-cloth. As the textures disappeared in flame and smoke the witnesses were horrified to recognize the body, head and hands of a well-developed baby. It was impossible to rescue the remains for evidence, the cremation proceeded so quickly.

Messrs. Meldon and Sennet lost no time in notifying High Sheriff Brown, who enjoined secrecy upon them as related. For their benefit, it may be stated that the Bulletin did not receive its information from either of them, nor did its informant.

## HAMAKUA LOOKS WELL

YOUNG CANE UNINJURED  
FROM THE LATE DROUGHT

C. B. Fisher of Kukuihaele in Town  
--On the Way Visited Olia  
Plantation and  
Mill.

C. B. Fisher of Kukuihaele is in town on business. He said to a Bulletin reporter that Hamakua district was all right now since receiving twelve inches of rain. The young cane never seemed to be affected by the drought and is now looking in fine condition. All of the loss from the long dry spell will be in the old cane.

On his journey to Honolulu Mr. Fisher visited Olia plantation and formed a high opinion of its prospects. Mr. McStocker has done good work, exhibiting among other executive qualities the knack of getting just the right kind of men to handle different departments. Mr. Fisher says the only possible question, in his opinion, is whether the soil will hold out long in fertility. As for the mill, he does not think its equal has hitherto been erected in the Hawaiian Islands.

## Judge Santa Claus.

At a meeting of the Children's Society of the Central Union Bible School yesterday afternoon, it was decided to have a grand Santa Claus reception on the evening of December 23, when the society will sing a cantata entitled "Judge Santa Claus." There will be another meeting at 2 o'clock this afternoon. All children desiring to join the cantata chorus are asked to be present as only those who are will be admitted in the singing society. Mrs. J. T. McDonald and Miss Florence L. Yarrow are in charge.

## Gamblers Worry.

San Francisco, Dec. 4.--The reinsurance gamblers are now wondering whether or not they will get their money on the Roanoke. The vessel was bound here, but put into Honolulu in distress, and the chances are she will be condemned there. In that event she will be classed as lost, and not having made her port of destination, the gamblers will lose.

# Slavery Does Exist SAYS GRAND JURY But Can't Be Proved

After a prolonged session of over two months, the United States Grand Jury made its report to Judge Esteo this morning and was discharged. The report, which was read by Clerk Mallog, was received by Judge Esteo, who, after hearing it read, complimented the jury on its work. The report, in full, is as follows:

To the Honorable M. M. Esteo, Judge of the United States District Court, Honolulu, Territory of Hawaii: The United States Grand Jury for the October term, 1901, were called and sworn and charged by the Court on October 15th at 10 a. m.

Mr. J. B. Atherton, being appointed foreman, promptly called the jury to order, who from time to time as cases were ready, aimed to carry out the able and precise charge of Your Honor. After several days' session Foreman Atherton was excused, as he was leaving for the Mainland, and Mr. C. H. Brown was appointed by Your Honor in his stead, serving in this capacity to the end of the term.

After the thorough examination of the many witnesses in the large number of cases brought before us, and after very careful deliberation on the same, we have found the following true bills, to wit:

Charles McDonald, assault and battery on high seas; R. H. Ramat, assault and battery on high seas; W. M. Campbell, violation of eight-hour labor law; Ota Makiuchi, violation of eight-hour labor law; Wilson Makila, forgery; Frank Ratahi, violation of Edmunds Act; Julia Aparicio, violation of Edmunds Act; Henry Allinas, violation of Edmunds Act; Anita State, violation of Edmunds Act; Akai, violation of Edmunds Act; Asa, violation of Edmunds Act; Kunda, violation of Edmunds Act; Haro, violation of Edmunds Act; Apoc, violation of Edmunds Act; Hatchel, violation of Edmunds Act; Apon, violation of Edmunds Act; Saki, violation of Edmunds Act; Rodriguez, violation of Edmunds Act; Miralida, violation of Edmunds Act.

In the other cases brought before us we found no bills on account of the lack of evidence which would warrant indictment. With regard to lack of evidence, we refer especially to:

**Traffic in Slaves.**  
Regarding the traffic in Chinese

**Crimes on High Seas.**  
In the matter of the several sailor cases brought before us, your jury has been most careful in the examination of witnesses and as a rule found that the testimony of most of the sailors was anything but reliable. In several cases the testimony so flimsy that it could not be believed for a moment. We are of opinion that the United States Commissioner should use more diligence and discretion in the examination of such cases of cruelty to the high seas as would warrant no such injury being done in future as was done in the cases of Captain Baker of the American ship Emily Reed and Captain Wallace of the American bark Sea King, who were acquitted by this jury on the same evidence they were held on before the United States Commissioner. We further find that in the cases where no indictment was found the action of the sailors was due to spite against their superior officers.

**Federal Work.**  
Complaints have been made that Federal officers have been charged of the erection of public buildings, are permitting Asiatic aliens to perform skilled labor on same, which in our judgment is wrong.

Referring directly to the eight-hour labor law, we find the same practically inoperative here.

Therefore we would suggest that in the future all Federal work be given out to tender from citizens of the United States and all Asiatic aliens be debarrd from same as *sub-contractors*.

## HELP COFFEE GROWERS ORDER FROM ABROAD PALAU HAS VISIONS

**KONA & CHICAGO COFFEE CO FLOATED TO MARKET BERRY**  
New Corporation Composed of Consumers Who Are All in Chicago--Stock All Taken.

There is good news for the growers of coffee on these islands in the organization of the Kona & Chicago Coffee Co, lately floated by J. Coeper while in the east.

Application will be made today to the Treasurer of the Territory for a charter to do business and then the directors of the company will be elected and work commenced immediately on the marketing of the coffee of the islands all in Chicago.

The new company has a capital of \$50,000 which is divided into 2000 shares. They are all held in Chicago in five shares lots by the consumers of the coffee which is to be grown here and sent east. Ovens have been established in the city of Chicago and to these the product will be shipped direct and sold from them directly to the consumers and retailers. The prices thus obtained will necessarily be much better than has heretofore been obtained by growers who dealt through agents and wholesalers and the company has bound itself to ship one thousand bags of coffee a month to Chicago.

The principal plantation of the company is situated in North Kona and consists of about 1200 acres of land, 500 of which are in bearing trees. In case the product of this plantation is not sufficient to fill the demand, coffee will be purchased from other growers here and will be used at the same figure as the product of the plantation of the company.

Mr. Coeper in speaking of the matter this afternoon said that at last a chance had come for the development of the coffee industry of the Islands which has never been properly handled. The growers under the new arrangement will be brought in close contact with the consumer, with the result that coffee will be grown here at a profit instead of at a loss and the industry will be bound to grow in the future.

The first shipment of coffee will be made this month and will consist of 500 sacks of the finest Kona coffee. From the first shipment the shipments will be made monthly and an effort made to keep the supply up to the demand.

## HONOLULU IRON WORKS SENDS JUICE WEIGHERS

Australia Recognizes Excellent Work of Local Shops--Three Machinist Sent By Last Steamer.

The management of the Honolulu Iron Works is just now wearing a very large-sized feather in its cap, and with good reason too, for the excellence of the work of the shops has been told abroad with such telling effect that recently an order for three patent cane-juice weighing-machines came from the Colonial Sugar Refining Company of Sydney.

The Honolulu Iron Works has turned out any amount of machinery for use in the islands, but never before has an order come from a foreign country. The sending forth of the juice-weighers to Australia marks the beginning of a career for the Iron Works more successful than it has ever attained to before, and opens up possibilities that has made the management tingle with delight.

## THINKS REPORTERS ARE NOW ON HIS TRIAL

His Hot Air Story on Finding of a Bullet --- Hung About Police Station Today.

Palau, the man who has for some time past, been the doorkeeper and bouncer at the meetings of the Home Rule executive committee, and who on several occasions of late, has chased reporters away from the door of Foster hall, caused a lot of excitement at Waikahala last evening.

Palau was out celebrating during the afternoon and, on his return home, carried a load of spirits that began to play havoc with his brain. Among other things, he threw himself on the floor and cried out for help, saying to his wife and other people about that he had been shot.

A call was sent into the police station and the patrol wagon with Captain Kanne and a number of officers responded. Upon arrival at the house, an investigation was made and Palau was found in his room. He showed an arm on which there were a number of scars of old boils and then, pointing to the wall, said the bullet was somewhere in it. The police searched in vain for the bullet.

Palau made his appearance at the police station this forenoon with a bullet in his possession. Where he got it, is hard to tell. However, he made a bluff at putting up a story so full of hot air that even the most sanguine were put to flight. He stated that the reporters on the morning papers had a spite against him because, on several occasions, he has turned them away from the Home Rule meetings. He is sure that one of these very wicked men shot at him. Continuing, Palau said:

"I was mopping the perspiration from my brow at the washstand when I heard the crack of a revolver from the window behind me. Then I felt a stinging sensation in my arm and, looking down, saw that I had had a narrow escape. The bullet had just grazed my arm, hit the wall and dropped. You see, the motion of my body while mopping my head, threw off the aim of the man at the window."

A number of questions might have been asked Palau but his story was so silly and showed such stupidity that he could not have been expected to give intelligent answers.

## HALE'S PACIFIC CABLE BILLS.

Washington, Dec. 4.--Senator Hale today reintroduced the Pacific cable bill as it passed the last session of Congress. It provided for the construction by the Government of a cable from the western coast of the United States to Hawaii.

Miss Margaret Haley and Miss Catherine Goggin, the two young teachers who have compelled the great corporations of Chicago to pay their fair share of taxes, are overwhelmed with invitations to speak on the tax question. Miss Haley will address the State Teachers' Association of Wisconsin and Minnesota during the Christmas vacation, and Miss Goggin will probably speak before the New Jersey State Teachers' Association at the same time.

## FILL IN LANDS AND BUILD THE BOULEVARD

Within the next few days articles of incorporation will be filed with the Treasurer of the Territory for the company which is to take in hand the work of filling in the lower lands and swamps of the city.

This project has received extensive notice from the papers already and at last it has advanced to the point of incorporation and preparation for active work. As has been previously stated the proposed company has secured the right to take earth for filling from the Dillingham lands at the head of Manoa valley. The material will be used for filling the swamps about Waikiki and along the waterfront toward the city center.

The floating of this company will also have a direct bearing upon and give an impetus to the proposed boulevard from the town to Kapoli park. The latter project is being very generally endorsed and is receiving good financial support.

## KONA-KAU RAILWAY

COMPANY ELECTS OFFICERS AND ACCEPTS ITS CHARTER

Action Taken at a Meeting Held This Forenoon--Coerper Will Leave Tuesday With Corps of Surveyors.

The promoters of the Kona-Kau Railway Co., Ltd., met in the office of the Wilder Bros. this forenoon for the purpose of electing officers. The result was as follows: Carl Coeper of Chicago, president; Jacob Coeper, vice president; C. T. Wilder, secretary; Harry Armitage, treasurer, and M. B. Macfarlane, auditor. These, with W. G. Coeper and Gardner K. Wilder constitute the Board of Directors.

At the meeting this forenoon, the charter issued to the company by the Territory of Hawaii was accepted and the secretary was instructed to send forward to the government notification of the election of officers.

J. Coeper will leave for Kona next Tuesday and with him will go a number of surveyors who will be named by W. A. Wall, the superintendent surveyor of the company. Now that the officers have been elected and everything connected with the starting of the work on the road has been settled, it is the intention to push matters along to their completion as rapidly as possible.

## INJUNCTION WRIT REFUSED TO SILVA

He Wanted to Restrain Vivas from Selling Property.

## CRIMINAL CALENDAR FOR TERM IS CLEARED

William Hall Has Retained Hatch & Silliman--Probate Matters Adjudicated--Commission to Take Testimony.

"I decline to issue an injunction upon this bill of complaint. The facts stated do not warrant the issuance of that extraordinary writ." This writing is a quietus placed on a bill for injunction brought by M. G. Silva against J. M. Vivas as defendant in the suit of Vivas vs. Silva. In his petition Silva says that the accounting of his partnership with Vivas the receiver, Henry Davis, found that Vivas owed him \$1924.67, that Vivas is selling off property and buying property in his wife's name. Therefore he prays for an injunction issue against Vivas to restrain him from doing those things until their partnership affairs are finally settled in the courts.

Judge Humphreys approved the first and final account of Mabel Wing Castle, guardian of Elmer H. Castle, minor. Receipts were \$11,065.55 and payments \$11,169, showing the minor's account overdrawn by \$43.35. An order was made allowing the guardian \$75 a month for the support and education of the minor.
